

Scavenger Hunt instructions

Pre-class preparation

- In small groups, search on the internet to find information about a local environmental problem and create a poster with PosterMyWall about this topic.
- Print and place your posters on classroom walls before class begins.

In class

- Read the scavenger hunt questions distributed by your teacher.
- Work in groups. You have 7 minutes to look for the answers on the posters and write them down.
- When the time is up, share scavenger hunt answers in class.
- As a class, share the most interesting information you learned and the answers that were most interesting or surprising.
