Hi I'm playing an online game.

Do you want to download it?

I don't know. It may
have viruses or
hackers.

Really? Can you show me?

Yes. Come to my house and I will show you.

The internet has lots of
hackers and viruses. Some
games have viruses too and
you may get hacked from
them.

And how can i
protect my
computer?

well, you should install an antivirus to keep your pc safe from any kinds of attacks!

Thank you for teaching me
these useful things.

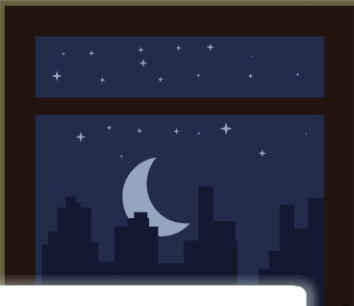

Bye bye

Mum I learned many things about the internet.

Good night mum and dad.

Good morning dad I will go to my
friend to teach me more things
about the internet.

A close-up photograph of a stone wall with various colored stones in shades of brown, tan, and grey. A horizontal scroll with a yellowish-gold background is centered over the wall. The scroll has a rolled-up edge on the left and a slightly irregular, torn edge on the right. The text "THE END" is written in a bold, stylized, blocky font with a dark blue outline and a light beige fill. The letters are spaced out and have a slight 3D effect.

THE END
