Pairwork: Survival Island – The Rights Charter (10')

1. The Challenge

You are stranded on a deserted island. You are a part of a committee and are starting a new society, so you have to make laws. You can only bring **3 Human Rights** with you. In pairs, choose them from the video. You can see some Rights at the images below or you can choose from the list. **REMEMBER:** If you don't choose a Right, it doesn't exist on your island!

healthcare, education, asylum, property, rest and leisure, fair working conditions, protection, law, court of law, protest, freedom of speech

2. Our New Laws

In pairs, fill in the table with your choices and explain **Why** and **How** they will help your society.

The Human Right	Why is it a Basic Need?	How will it help our new society?
	It is important because...	Without this right, our society would...
	We need this because...	This right ensures that everyone...
	This is essential because...	This protects us from...

3. Class Discussion

If you had to trade one of these rights for **Freedom of Speech**, which one would you give up? Why?

.....

Imagine your island has Healthcare and Education, but you decided NOT to bring Justice. If the doctors or teachers start treating people unfairly, how can you protect your rights? Is one right ever 'safe' if the others don't exist?

.....
